

Content Outline

Project Title: Joy Harjo Website

I think this site would work well with different pages delineating different aspects of Harjo's life and work. Some of the pages could also be grouped together as subpages in a larger category (i.e. published work and music).

- **Introduction:** Introduce Joy Harjo in her current role as US Poet Laureate
- **Biography:** Draw from the “early life and education” section of the Wikipedia page, and parts of the “career” section, and the “personal life” section
- **Published Work:** Give an overview with content from the “career - literature and performance” section, and then list full bibliography
- **Awards:** List all awards, perhaps separated by decade as with the Wikipedia article—might be best to highlight a few most significant at the top of the page, or order from most to least recent
- **Activism:** Draw from the activism part of the “career” section
- **Music:** Open with overview from “career - music” section and then list full discography
- **Sources:** Give credit to the Wikipedia page, list the references for the Wikipedia page, and note any other content used
